1. The following clauses are hereby revised as follows:

L2.31.100 PROPOSAL FORMAT AND CONTENT (DESC MARCH 2001)

Proposals will be submitted in two sections and clearly labeled **Price Proposal** and **Technical Proposal**. Offers for less than the **initial five-year period plus five year option** will not be considered.

(a) PRICE PROPOSAL.

(1) The SERVICES TO BE FURNISHED clause must be completed and a detailed cost breakdown included. All fill-ins in the Offeror Submission Package must be completed and submitted with the offer. The offeror should submit the original and one copy of the price proposal.

(2) If any exceptions are to be taken to the terms and conditions, indicate specific paragraphs and submit as part of the price proposal. Only exceptions detailed here will be considered exceptions to the requirements of the solicitation.

(b) TECHNICAL PROPOSAL.

(1) The offeror will submit the original and 3 copies of the technical proposal. The proposal will be evaluated strictly on technical merit, and should describe and justify the offeror's technical approach to the requirements of the work to be performed. Without simply mirroring the content of the PWS, the offeror will provide a concept as to how the workload for the location in question will be accomplished. Within the limits outlined below, the technical proposal should be specific, complete in every detail, and provide concise, straight forward descriptions of the offeror's capability to perform this work. Offerors will identify any technical, schedule, performance, or cost risks associated with their proposals, and describe how they will resolve or avoid the identified risks. Proposals that are unrealistic in terms of technical commitments or price may be considered indicative of a lack of understanding of the solicitation requirements. The complete technical proposal for factor (2)(i), excluding résumés and equipment sale/lease agreements, **will not exceed 25 pages**.

(2) **SPECIFIC INSTRUCTIONS.** Technical proposals should address the following subjects, which will be evaluated to determine technical scores:

(i) OPERATIONAL CAPABILITY.

(A) The offeror must provide a complete description of the equipment to be provided as follows:

(a) **PRIME MOVER/TRACTOR.** List prime movers/tractors by make, model or series, model year, gross vehicle working rate (GVWR), by axle and total, and the condition of the unit;

(b) **CARGO TANK.** List cargo tanks(s) by manufacturer, model or model number, the year originally built and certified, and, applicable, the date refurbished, stretched, or rebarreled. Also, provide the MC/DOT specification, the capacity as reflected by the tank data plate, and the condition of the tank.

(c) **PUMPING SYSTEM.** Show the manufacturer of the system, use "local" if built by the offeror, the year originally built and refurbished, the year installed, and whether the components are new/used or a combination thereof.

(d) **OWNERSHIP.** If the equipment offered is not owned by the offeror, a sale or lease agreement must be submitted. This agreement must show the number and description of the trucks, tractors, trailers being provided, and that all parties have agreed to a delivery date, price, and terms of payment. A conditional agreement is acceptable. Any other equipment to be provided should also be described.

(B) The offeror will submit a detailed manning plan. Using a 24-hour (across) by 7-day (down) template, provide a typical week/weekend workforce schedule for all positions showing all labor classifications and titles, including managers.

(C) Each offeror will also submit a summary Contract Compliance Plan and a summary Training Plan (each no longer than 2 pages). In addition, a list of key personnel, the Corporate Executive Officer, the On-Site Manager, and the Assistant Manager, if applicable, and their résumés in the following format, will be provided..

(a) Name.

(b) Current position.

(c) Current employer.

(d) An employment history of the positions held and the period of employment, the employer, and a brief description of the responsibilities for the position. All military experience claimed shall treat each tour as a separate employer. Time frames/title(s)/responsibilities for military experience shall be provided as discussed above.

(ii) PAST PERFORMANCE.

(A) **EXPERIENCE.** The offeror shall list all contracts and subcontracts (completed or in progress) for the last three years from DESC as well as others (completed or in progress) for other Government agencies or the private sector that are related to the proposed contract. Failure to submit a complete list may reflect adversely on the Contractor. The Government has the option to consider information from these sources, and any others that may be available, that it deems necessary in order to make an accurate assessment of the Contractor's past performance. The offeror should include the following information:

- (a) Name of contracting activity;
 - (b) Contract number;
 - (c) Contract type and dollar value;
 - (d) Brief description of the work (if the offeror is a large business, include a description of any subcontracting); and
 - (e) Contracting Officer, Contracting Officer's Representative, Administrative Contracting Officer, and program manager (all that are applicable) with telephone numbers. These contracts may include efforts undertaken on behalf of (1) private industry, (2) quasi-government organizations, or (3) Federal agencies, including those performed for non DoD activities.
- (B) The offeror should provide information on any significant problems encountered and corrective actions taken.

(DESC 52.215-9F95)

L87.06.100 CONDITIONS FOR MULTIYEAR OFFERS (DESC MAR 2001)

(a) Offerors must submit a price for the **initial multiyear requirement and option period**. Offers for less than the **multiyear and option requirements** will not be considered for award, except for items specifically designated as one-year requirements.

- (b) An offer price on a multiyear line item shall apply to the entire period of the multiyear requirement.

(DESC 52.207-9FA5)

M28 EVALUATION OF OFFERS (DESC JUN 1998)

(a) Award of this contract shall be made by using source selection procedures. Proposals submitted in response to this solicitation should be prepared in accordance with the PROPOSAL FORMAT AND CONTENT clause and will be evaluated by a board of one or more Government personnel. Final selection shall be made by the Source Selection Authority based on an overall assessment of each offeror's technical and price proposals. Judgment on the part of the Government evaluator(s) is implicit in the entire source selection process. The resultant contract shall represent the best overall value to the Government.

(b) For purposes of this solicitation, price and technical merit are equal in importance. However, as proposals become more equal in their technical merit, the price becomes more important.

(i) **PRICE EVALUATION.** The Government reserves the right to award to other than the lowest evaluated offer. The low offer will be determined by computing the total cost to the Government for the **initial five-year period, plus the five year option period** of performance.

(ii) **TECHNICAL EVALUATION.** Technical proposals will be rated and ranked against the evaluation factors listed below, which are equal in importance:

FACTOR 1	OPERATIONAL CAPABILITY
Subfactor A *	Number, size, age, condition, and quality of trucks and other equipment to be provided.
Subfactor B *	Demonstration of understanding the operational requirements, including the adequacy of the manning plan to meet the requirements.

* Each subfactor is equal in importance.

FACTOR 2	PAST PERFORMANCE
-----------------	-------------------------

The Government will evaluate the offeror's past performance. In doing this, the Government may consider information in the offeror's proposal and information obtained from other sources, including past and present customers and their employees, other subcontractors, and any others who may have useful information. Offerors lacking relevant past performance history shall receive a neutral evaluation for past performance.

A record of acceptable past performance will not result in a favorable assessment of an otherwise unacceptable proposal.

- (c) After each evaluation, each of the factors described in (b)(ii) above will be given one of the following ratings:

- (1) Exceptional.
- (2) Very Good.
- (3) Satisfactory.
- (4) Marginal.
- (5) Unsatisfactory.

Proposals may be rated differently within each category, i.e., two proposals may receive an exceptional rating, but one may be more exceptional than the other.

(DESC 52.209-9F95)

M43.01 EVALUATION OF OPTIONS (DESC MAY 1999)

(a) Proposals will be evaluated for purposes of award by adding the total price for all option periods to the total price for the basic period. Evaluation of options will not obligate the Government to exercise the option or options.

(b) Any proposal that is materially unbalanced as to prices for basic option periods may be rejected as nonresponsive. An unbalanced offer is one which is based on prices significantly less than cost for some work and prices which are significantly overstated for other work.

(DESC 52.211-9F05)

2. The following clause does not apply and is hereby deleted in its entirety.
